

Nordelettronica electroblocks connection diagram

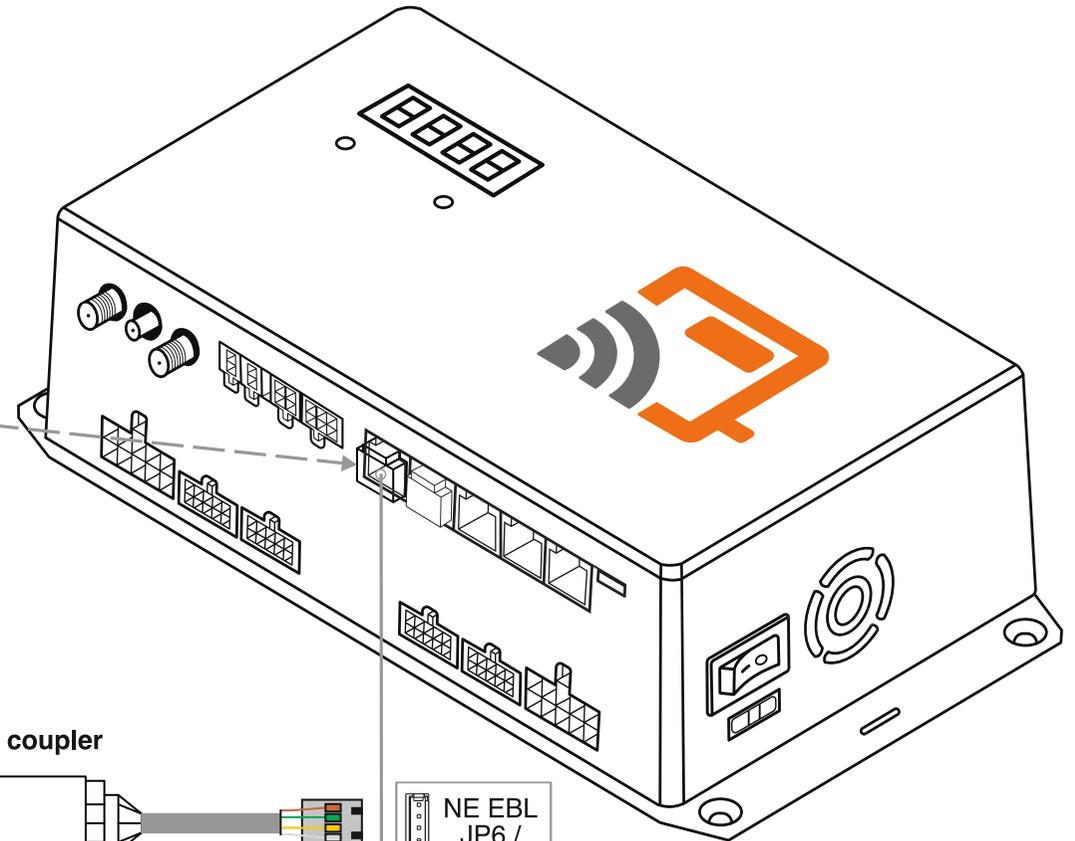

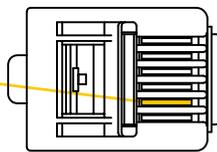

There are two ways how to connect with Nordelettronica bus system. For NE196, NE356 and NE237 electroblocks use CCW010 coupler when for NE350 use one wire connection as shown in the picture below.

NE350 - JP6 connector

max. 1m

RJ12 6p connector

The correct option must be set also in the Service settings of the mobile App.

- Nordelettronica NE196/356
- Nordelettronica NE237
- Nordelettronica NE350
